

# How to Develop Another Stream of Income!

## THE PLAN B INCOME CONCEPT - It's Simple! Not Easy, But Simple!

- You want the choice of being able to do what you want when you want, to enjoy another source of income and good health. And you are willing to make it happen.

You buy health products and with your Support Team, you find four others who want to do what they want when they want, to enjoy another source of income and good health. They also are willing to make it happen.

- They buy health products and with their Support Team, find four others who want to do what they want when they want, to enjoy another source of income and good health. They also are willing to make it happen.
- They buy health products and with their Support Team, they find four others who are willing to carry on the process.
- There are people who will just want to order products but are not willing to do what is necessary to generate income. They are your 'Friend Customers' and will order regularly through your account.
- *There are people who want to be able to do what they want when they want. This is about a simple way for them to achieve it.*
- *"You can have everything in life you want if you will just help enough other people get what they want."* – Zig Ziglar

"There are two types of people in this world:

- People that have the income to be financially independent, and
- Those that don't

Which group would you like to belong to?"
